

Futu Announces First Quarter 2021 Unaudited Financial Results

May 19, 2021

HONG KONG, May 19, 2021 (GLOBE NEWSWIRE) -- Futu Holdings Limited ("Futu" or the "Company") (Nasdaq: FUTU), a leading tech-driven online brokerage and wealth management platform in China, today announced its unaudited financial results for the first quarter ended March 31, 2021.

First Quarter 2021 Operational Highlights

- Total number of paying clients¹ increased 231.0% year-over-year to 789,652.
- Total number of registered clients² increased 140.2% year-over-year to 1,957,436.
- Total number of users³ increased 69.7% year-over-year to 14.2 million.
- Total client assets increased 367.6% year-over-year to HK\$462.2 billion.
- Daily average client assets were HK\$384.7 billion in the first quarter of 2021, an increase of 303.7% from the same period in 2020.
- **Total trading volume** increased 277.5% year-over-year to HK\$2.2 trillion, in which trading volume for US stocks was HK\$1.4 trillion and trading volume for Hong Kong stocks was HK\$816.2 billion.
- Daily average revenue trades (DARTs)⁴ increased 321.0% year-over-year to 902,533.
- Margin financing and securities lending balance increased 469.5% year-over-year to HK\$27.4 billion.

First Quarter 2021 Financial Highlights

- Total revenues increased 349.4% year-over-year to HK\$2,204.6 million (US\$283.6 million).
- Total gross profit increased 372.6% year-over-year to HK\$1,761.4 million (US\$226.6 million).
- Net income was up 6.5 times year-over-year to HK\$1,162.3 million (US\$149.5 million).
- Non-GAAP adjusted net income⁵ was up 6.3 times year-over-year to HK\$1,179.2 million (US\$151.7 million).

Mr. Leaf Hua Li, Futu's Chairman and Chief Executive Officer, said, "We are excited to announce that our operating and financial results continued to achieve robust growth."

"We added approximately 273 thousand paying clients in the first quarter, which accounts for 39% of our full year growth target. As of quarter end, we had approximately 790 thousand paying clients, representing 231.0% year-over-year growth. Among the net additions in the first quarter, 70% came from Hong Kong, Singapore and other overseas markets, and over 50% joined our platform organically. Client acquisition in Singapore has far exceeded our expectations since the official launch on March 8, and the strong momentum continued into the second quarter. Our superior product experience and laser focus on client servicing, coupled with our online and offline advertising and strong word-of-mouth referral, have helped us quickly capture the mindshare of Singaporeans. We are encouraged by what we have achieved in Singapore so far and are convinced that Singapore and the broader Southeast Asian market offer huge runway for growth. Despite rapid client base expansion, our quarterly paying client churn rate remained below 2%."

"Total client assets reached HK\$462.2 billion as of quarter end, representing 367.6% growth on a year-over-year basis and 62.1% growth on a quarter-over-quarter basis. Average client asset balance thus further climbed to HK\$585 thousand."

"Total trading volume was HK\$2.2 trillion, up 277.5% year-over-year and 85.7% quarter-over-quarter. U.S. and Hong Kong stock trading volume were HK\$1.4 trillion and HK\$816.2 billion, respectively. As part of our efforts to broaden trading offerings, we launched OSE futures from the Japan Exchange Group and Singapore stock trading in the first quarter."

"Our wealth management business *Money Plus* established new partnerships with 4 reputable asset managers, namely Wells Fargo, Income Partners, Aberdeen Standard and BNY Mellon. As of quarter end, over 59,000 clients held wealth management positions and total client asset balance in wealth management products was HK\$13.1 billion, up 188.6% and 108.0% year-over-year, respectively."

"As for our enterprise business Futu I&E, we had 152 IPO and IR clients as well as 200 ESOP solution clients as of March 31, 2021. In the first quarter, we participated in all Chinese ADR's secondary listings in Hong Kong, and were the only online broker in the selling groups of the Hong Kong IPOs of Kuaishou, Baidu, and Bilibili."

Mr. Arthur Yu Chen, Futu's Chief Financial Officer, added, "In April, we completed a follow-on offering with net proceeds of approximately US\$1.4 billion. The offering was met with significant interests from leading investors across the globe and the order book was multiple times oversubscribed. The offering proceeds will be used for margin financing business, international expansion, new license applications, potential investment and acquisition opportunities, and other general corporate purposes."

- ¹ The number of paying clients refers to the number of clients with assets in their trading accounts with Futu.
- ² The number of registered clients refers to the number of users who open one or more trading accounts with Futu.
- ³ The number of users refers to the number of user accounts registered with Futu.
- ⁴ The number of Daily Average Revenue Trades (DARTs) refers to the number of average trades per day that generate commissions or fees.
- ⁵ Non-GAAP adjusted net income is defined as net income excluding share-based compensation expenses.

Revenues

Total revenues were HK\$2,204.6 million (US\$283.6 million), an increase of 349.4% from HK\$490.6 million in the first guarter of 2020.

Brokerage commission and handling charge income was HK\$1,324.9 million (US\$170.4 million), an increase of 342.8% from HK\$299.2 million in the first quarter of 2020. The rise was mainly due to the 277.5% year-over-year growth of our total trading volume.

Interest income was HK\$658.6 million (US\$84.7 million), an increase of 355.8% from HK\$144.5 million in the first quarter of 2020. The increase in margin financing interest income was mainly driven by the sharp increase in daily average margin financing balances, higher IPO financing interest income due to an active Hong Kong IPO market, and an increase in income from our securities borrowing and lending services.

Other income was HK\$221.1 million (US\$28.4 million), an increase of 370.4% from HK\$47.0 million in the first quarter of 2020. The jump was primarily due to increases in our IPO subscription service charge income and currency exchange service income.

Costs

Total costs were HK\$443.2 million (US\$57.0 million), an increase of 275.9% from HK\$117.9 million in the first quarter of 2020.

Brokerage commission and handling charge expenses were HK\$213.8 million (US\$27.5 million), an increase of 326.7% from HK\$50.1 million in the first quarter of 2020. This increase was largely in line with the growth of our brokerage commission and handling charge income.

Interest expenses were HK\$167.5 million (US\$21.5 million), an increase of 406.0% from HK\$33.1 million in the first quarter of 2020. The growth was primarily due to higher margin financing interest expenses and an increase in our securities borrowing and lending business.

Processing and servicing costs were HK\$61.9 million (US\$8.0 million), an increase of 78.4% from HK\$34.7 million in the first quarter of 2020. The increase was primarily the result of our increased cloud service expenses and the expenses for the addition of 300 throttling controllers connected to the trading system of the Hong Kong Stock Exchange to execute a larger number of concurrent Hong Kong stock trades.

Gross Profit

Total gross profit was HK\$1,761.4 million (US\$226.6 million), an increase of 372.6% from HK\$372.7 million in the first quarter of 2020.

Gross profit margin increased from 76.0% in the first quarter of 2020 to 79.9% in the first quarter of 2021, attributable to higher operating leverage as a result of our larger business scale.

Operating Expenses

Total operating expenses were HK\$489.8 million (US\$63.0 million), an increase of 149.3% from HK\$196.5 million in the first quarter of 2020.

Research and development expenses were HK\$137.4 million (US\$17.7 million), an increase of 63.4% from HK\$84.1 million in the first quarter of 2020. The increase was primarily due to an increase in research and development headcount to support new product offerings.

Selling and marketing expenses were HK\$274.6 million (US\$35.3 million), an increase of 320.5% from HK\$65.3 million in the first quarter of 2020. The increase was primarily due to higher branding and marketing spending.

General and administrative expenses were HK\$77.8 million (US\$10.0 million), an increase of 65.2% from HK\$47.1 million in the first quarter of 2020. The increase was primarily due to an increase in headcount for general and administrative personnel.

Net Income

Net income increased by 6.5 times to HK\$1,162.3 million (US\$149.5 million) from HK\$154.9 million in the first quarter of 2020. The increase was primarily due to significant revenue growth and operating leverage.

Non-GAAP adjusted net income increased by 6.3 times to HK\$1,179.2 million (US\$151.7 million) from HK\$160.6 million in the first quarter of 2020. Non-GAAP adjusted net income is defined as net income excluding share-based compensation expenses. For further information, see "Use of Non-GAAP Financial Measures" at the bottom of this press release.

Net Income per ADS

Basic net income per American Depositary Share ("ADS") was HK\$8.17 (US\$1.05), compared with HK\$1.23 in the first quarter of 2020. Diluted net income per ADS was HK\$8.02 (US\$1.03), compared with HK\$1.22 in the first quarter of 2020. Each ADS represents eight Class A ordinary shares.

The Company primarily serves the emerging affluent Chinese population, pursuing a massive opportunity to facilitate a once-in-a-generation shift in the wealth management industry and build a digital gateway into broader financial services. The Company provides investing services through its proprietary digital platforms, *Futubull* and *moomoo*, each a highly integrated application accessible through any mobile device, tablet or desktop. The Company's primary fee-generating services include trade execution and margin financing which allow its clients to trade securities, such as stocks, warrants, options, futures and exchange-traded funds, or ETFs, across different markets. Futu enhances the user and client experience with market data and news, research, as well as powerful analytical tools, providing them with a data rich foundation to simplify the investing decision-making process. Futu has also embedded social media tools to create a network centered around its users and provide connectivity to users, investors, companies, analysts, media and key opinion leaders.

Use of Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses non-GAAP adjusted net income, a non-GAAP measure, as a supplemental measure to review and assess its operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company defines non-GAAP adjusted net income as net income excluding share-based compensation expenses. The Company presents the non-GAAP financial measure because it is used by the management to evaluate the operating performance and formulate business plans. Non-GAAP adjusted net income enables the management to assess the Company's operating results without considering the impact of share-based compensation expenses, which are non-cash charges. The Company also believes that the use of the non-GAAP measure facilitates investors' assessment of its operating performance.

Non-GAAP adjusted net income is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This non-GAAP financial measure has limitations as analytical tools. One of the key limitations of using non-GAAP adjusted net income is that it does not reflect all items of expense that affect the Company's operations. Share-based compensation expenses have been and may continue to be incurred in the business and is not reflected in the presentation of non-GAAP adjusted net income. Further, the non-GAAP measure may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

The Company compensates for these limitations by reconciling the non-GAAP financial measure to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company's performance.

For more information on this non-GAAP financial measure, please see the table captioned "Unaudited Reconciliations of Non-GAAP and GAAP Results" set forth at the end of this press release.
